

# A CONVERGED SOLUTION FIT FOR A KINGDOM

**INDEVCO drives expansion in Lebanon, Egypt and Saudi Arabia with multiple data centres making IT operations 30 per cent more effective**

## Business need

Growing companies want flexible IT to help sustain growth. As such, INDEVCO looked for a converged infrastructure to support its expanding operations in Lebanon, Egypt and Saudi Arabia.

## Solution

The company worked with Dell through Dell partner SETS to deploy converged infrastructures featuring Dell blade servers, Dell Networking and Dell storage at the organisation's locations in Lebanon and Egypt.

## Benefits

- Increases productivity with up to seven times faster data access for staff
- Drives growth with 30 per cent more effective IT
- Consolidates IT platform by 50 per cent through convergence
- Simplifies IT management by 20 per cent with end-to-end solution
- Avoids months of lost production with responsive support
