

Sente Mortgage

Introduction

This case study of Sente Mortgage is based on a May 2019 survey of SonicWall Network Security customers by TechValidate, a 3rd-party research service.

“My SonicWall TZ series firewall is meeting or exceeding my performance and security expectations,” says Jim Browarski, IT Manager at Sente Mortgage

Challenges

The company deployed SonicWall TZ firewalls to address the following challenges:

- Enforcing a uniform advanced security platform across distributed sites
- Easing central management of firewalls across distributed sites
- Consolidating security and networking features in a single solution
- Providing greater scalability for network security

They also evaluated Fortinet firewalls before selecting their SonicWall TZ firewalls.

Use Case

The key features and functionalities of SonicWall Network Security that the surveyed company uses: The key features and functionalities that were important in selecting their TZ included:

- Capture ATP sandboxing
- Real-time Deep Memory Inspection (RTDMI)
- Reassembly-Free Deep Packet Inspection (RFDPI)
- Deep packet inspection of encrypted traffic (DPI SSL)
- Integrated VPN

SonicWall TZ features that were important in selecting their TZ:

- The ability to capture ATP sandboxing
- Real-time Deep Memory Inspection (RTDMI)
- Reassembly-Free Deep Packet Inspection (RFDPI)
- Deep packet inspection of encrypted traffic (DPI SSL)
- An integrated VPN

Results

Sente Mortgage is extremely satisfied with their TZ Series firewall.

They strongly believe that their SonicWall TZs:

- Provide the best security value
- Are easy to deploy and manage
- Have the networking features they need

The company realized the following operational benefits following the deployment of their SonicWall:

- Reduced IT infrastructure costs
- An improved overall system uptime
- The ability to deliver faster performance
