

# Trinity-Pawling School

## Introduction

This case study of Trinity-Pawling School is based on an August 2019 survey of SonicWall NSA firewalls customers by TechValidate, a 3rd-party research service.

“My SonicWall NSA firewall is easy to use, manage, update,” says Bryan Turner, Director, Trinity-Pawling School. “Most items are easy to understand and implement. It’s meeting or exceeding my performance and security expectations.”

## Challenges

Trinity-Pawling School deployed SonicWall NSA firewalls because they were challenged with consolidating security and networking features in a single solution.

## Use Case

The key features and functionalities that were important in selecting their SonicWall NSA firewall included:

- Capture ATP multi-engine sandboxing
- Real-Time Deep Memory Inspection (RTDMI)
- Deep Packet Inspection of Encrypted Traffic (DPI-SSL)
- Zero-touch deployment
- An integrated VPN

## Results

Turner is very satisfied with their NSA Series firewall, and finds that they are easy to manage.

Trinity-Pawling School realized the following operational benefits following the deployment of their SonicWall NSA firewall:

- Improved the efficiency of a business process
- Improved data protection of critical information
