

New Jersey Public Schools

Introduction

This case study of New Jersey Public Schools is based on an August 2019 survey of SonicWall NSA firewalls customers by TechValidate, a 3rd-party research service.

“As a public school, it is extremely important that our users are safe and that inappropriate material is blocked. We are happy with the results of our SonicWall NSA, ”says Kevin O’Donnel, IT Manager, New Jersey Public Schools. “Our SonicWall NSa firewall is meeting or exceeding my performance and security expectations.”

Challenges

New Jersey Public Schools ultimately selected SonicWall NSa firewalls because they were challenged with consolidating security and networking features in a single solution.

Use Case

Zero-touch deployment was particularly important in selecting their SonicWall NSa firewall.

Results

O’Donnell is very satisfied with the NSa Series firewall. “We are a public school and it is extremely important that our users are safe and that inappropriate material is blocked. I am able to block by country, URL and wildcards. SonicWall NSa provide the best security value.”

New Jersey Public Schools realized the following operational benefits following the deployment of their SonicWall NSa firewall:

- Faster performance
- Improved data protection of critical information
- Met regulatory compliance standards

Organization Profile

Organization:
New Jersey Public Schools

Industry:
Educational Institution

About SonicWall NSa firewalls

SonicWall has been fighting the cyber-criminal industry for over 25 years defending small, medium-size businesses and enterprises worldwide.
