

Integrated Medical Group

Introduction

This case study of Integrated Medical Group is based on an August 2019 survey of SonicWall NSa firewalls customers by TechValidate, a 3rd-party research service.

“We’re using our SonicWall NSa firewall as a VPN endpoint and gateway router,” says Brian Walsh, IT Director, Integrated Medical Group. “It’s increased uptime and increased security.”

Challenges

The medical group had tried Cisco/Meraki solutions before selecting a SonicWall solution. They deployed SonicWall NSa firewalls because they were challenged with consolidating security and networking features in a single solution.

- Used or evaluated Cisco/Meraki before selecting their SonicWall NSa firewall(s).
- Deployed SonicWall NSa firewalls because they were challenged with consolidating security and networking features in a single solution.

Use Case

Integrated VPN was a crucial factor in selecting their SonicWall NSa firewall solution.

Results

Walsh is very satisfied with their NSa Series firewall and finds it includes the networking features they need. “My SonicWall NSa firewall is meeting or exceeding my performance and security expectations.”

Integrated Medical Group achieved the following results with SonicWall NSa firewalls:

- Improved overall system uptime
- Improved data protection of critical information
- Met regulatory compliance standards
