Abbey Dental Center

Introduction

This case study of Abbey Dental Center is based on an August 2019 survey of SonicWall NSa firewalls customers by TechValidate, a 3rd-party research service.

> "We're using our SonicWall NSa firewalls to connect multiple offices together, and as the first line of defense from the outside in as well as inside out.," says Michael Della Camera, Chief Technology Officer, Abbey Dental Center. "NSa gives us secure VPN access for satellite locations and incredible protection from outside threats."

Challenges

The company deployed SonicWall NSa firewalls because they were challenged with consolidating security and networking features in a single solution.

Use Case

Deep Packet Inspection of Encrypted Traffic (DPI-SSL) and integrated VPN were crucial factors in selecting their SonicWall NSa firewall solution.

Results

The CTO is very satisfied with their NSa Series firewall and they are easy to deploy. "My SonicWall NSa firewall is meeting or exceeding my performance and security expectations."
Abbey Dental Center achieved the following results with SonicWall NSa firewalls:
- Reduced IT infrastructure costs
- Improved data protection of critical information
- Met regulatory compliance standards
- Increased number of blocked attacks by 51-75%

Company Profile

Company:
Abbey Dental Center

Company Size:
Medium Enterprise

Industry:
Health Care

About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era in a work reality where everyone is remote, mobile and unsecure. SonicWall safeguards organizations mobilizing for their new business normal with seamless protection that stops the most evasive cyberattacks across boundless exposure points and increasingly remote, mobile and cloud-enabled workforces. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide.
