

The Mann School

Introduction

This case study of The Mann School is based on an August 2019 survey of SonicWall NSA firewalls customers by TechValidate, a 3rd-party research service.

“My SonicWall NSA firewall is meeting or exceeding my performance and security expectations,” says Ajit Kashyap, System Administrator, the Mann School.

Challenges

The Mann School, located in New Delhi, is a member of Indian Public Schools' Conference (IPSC). They had tried Fortinet solutions before selecting their SonicWall NSA solution.

They chose to deploy SonicWall NSA firewalls to help overcome challenges with optimizing network security performance.

Use Case

Real-Time Deep Memory Inspection (RTDMI) was a key differentiator for the school in selecting their SonicWall NSA firewall.

Results

Kashyap is very satisfied with their NSA Series firewall, and agrees that SonicWall NSA are easy to deploy.

The school realized the following operational benefits following the deployment of their SonicWall NSA firewall:

- Improved overall system uptime
- Has seen the number of blocked attacks increase by 51-75%
