SONICWALL

Retail: Preturi Pentru Tine (PPT)

Introduction

This case study of Preturi Pentru Tine is based on a May 2019 survey of SonicWall Network Security customers by TechValidate, a 3rd-party research service.

> **"We use our TZ firewalls to interconnect different sites to the central one,"** says Radu Murariu, Network Administrator, Preturi Pentru Tine. **"SonicWall delivers high uptime and good stability."**

Challenges

Preturi Pentru Tine (PPT) is a clothing store chain in Romania. They had previously tried Cisco solutions before selecting SonicWall. The business challenges that led this retailer to evaluate and ultimately select SonicWall Network Security included:

- Enforcing a uniform advanced security platform across distributed sites
- Easing central management of firewalls across distributed sites
- Consolidating security and networking features in a single solution
- Providing greater scalability for network security

Use Case

The key features and functionalities of SonicWall Network Security that were important in selecting their TZ Series solution included:

- Zero-Touch Deployment
- An integrated VPN

Results

Murariu is very satisfied with their TZ Series firewall solution, and it is meeting or exceeding his performance and security expectations. He finds that the TZ Series firewalls:

- Beat the competition in security effectiveness
- Provide the best security value
- Are easy to deploy and manage
- Have the networking features that PPT needs

The retailer gained the following operational benefits by deploying SonicWall:

- An improved overall system uptime
- The ability to deliver faster performance
- An improved data protection of critical information
