SONICWALL CAPTURE CLIENT CASE STUDY

Secure Care Products

Introduction

This case study of Secure Care Products is based on a November 2019 survey of SonicWall Capture Client customers by TechValidate, a 3rd-party research service.

"SonicWall Capture Client is meeting or exceeding my performance and security expectations," agrees Michael Rücker, IT Manager, Secure Care Products.

Challenges

Rücker identified delivering security without hampering user productivity as the challenge that most influenced their organization to deploy SonicWall Capture Client.

Endpoint security brands in place or evaluated before selecting SonicWall Capture Client included McAffee.

Use Case

The unified lightweight agent was a key feature influencing their selection of SonicWall Capture Client.

Results

Rücker is extremely satisfied with their experience with SonicWall Capture Client endpoint protection and finds it easy to deploy.

The company saw a 76-100% reduction in end-user complaints for installed endpoint security products since deploying SonicWall Capture Client.

Operational benefits realized following the deployment of SonicWall Capture Client include:

- Improved the efficiency of threat response processes
- Improved end-user productivity
- Improved protection of critical information

Company Profile

Company: Secure Care Products
Company Size: Small Business
