

Western NRG

Introduction

This case study of Western NRG is based on a December 2019 survey of SonicWall Cloud App Security customers by TechValidate, a 3rd-party research service.

“We integrated it with Office 365,” says Nathan Orlina, Network Administrator, Western NRG “We deployed it after a phishing attack. CAS blocked subsequent attacks and helped us identify other attacks into the network.”

Challenges

The organization previously tried Microsoft email security solutions and had no SaaS application protection in place prior to selecting SonicWall Cloud App Security (CAS).

The challenge that most influenced their decision to deploy SonicWall Cloud App Security was protection against advanced phishing attacks or business email compromise (BEC).

Use Case

Key features and functionalities of SonicWall Cloud App Security that were important in selecting SonicWall Cloud App Security included:

- Ability to extend security to the cloud
- Cloud-native email protection for Office 365 or Gmail

Results

Orlina is very satisfied with his experience using SonicWall Cloud App Security (CAS) and finds it easy to manage. "SonicWall Cloud App Security is meeting or exceeding my performance and security expectations."

As a result, the surveyed company improved:

- The efficiency of its threat response processes
- Visibility/control of SaaS email and app threat landscape

Company Profile

Company:
Western NRG

Company Size:
Small Business

Industry:
Computer Services

About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era in a work reality where everyone is remote, mobile and unsecure. SonicWall safeguards organizations mobilizing for their new business normal with seamless protection that stops the most evasive cyberattacks across countless exposure points and increasingly remote, mobile and cloud-enabled workforces. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide.
