

# Medium-Enterprise Health Care Company

## Introduction

This case study of a medium-enterprise health care company is based on a December 2019 survey of SonicWall Cloud App Security customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“SonicWall Cloud App Security is meeting or exceeding my performance and security expectations,” says the IT manager at a medium-enterprise healthcare organization. “We used SonicWall Cloud App Security in express mode to protect our Office 365 Exchange, SharePoint and OneDrive.”

## Challenges

The healthcare organization previously had no protection for its SaaS applications. The challenge that most influenced the organization to deploy SonicWall Cloud App Security (CAS) was maintaining consistent security policies for SaaS email and apps.

## Use Case

Key features and functionalities of CAS that the surveyed company uses include:

- Unified solution to protect SaaS email and/or data within SaaS apps
- Seamless user experience
- Ability to extend security to the cloud
- Cloud-native email protection for Office 365 email or Gmail
- Data protection for SaaS apps such as OneDrive and SharePoint

## Results

The IT manager of the surveyed company is very satisfied with their experience using CAS.

He finds that CAS includes the email security features they need and has improved visibility and control of their SaaS email and app threat landscape.

### Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:  
**Medium-Enterprise**

Industry:  
**Health Care**

### About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era in a work reality where everyone is remote, mobile and unsecure. SonicWall safeguards organizations mobilizing for their new business normal with seamless protection that stops the most evasive cyberattacks across countless exposure points and increasingly remote, mobile and cloud-enabled workforces. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide.
