

National Store

Introduction

This case study of National Store is based on a May 2019 survey of SonicWall Network Security customers by TechValidate, a 3rd-party research service.

“Our SonicWall TZ series firewall is meeting or exceeding our performance and security expectations.”

- Sheik Abdulla, Network Administrator, National Store

Challenges

Business challenges that led National Store to evaluate and ultimately select SonicWall Network Security included:

- Enforcing a uniform advanced security platform across distributed sites
- Easing central management of firewalls across distributed sites

Types of cyber-attacks that influenced their decision to purchase a SonicWall TZ firewall:

- Malware
- Ransomware
- Encrypted threats
- PDF & Office document threats
- IoT attacks

National Store had owned a SonicWall firewall in the past.

Use Case

Key features and functionalities of SonicWall Network Security that were important to National Store in selecting their TZ included:

- Capture ATP sandboxing
- Real-time Deep Memory Inspection (RTDMI)
- Deep packet inspection of encrypted traffic (DPI SSL)
- Integrated 802.11ac WiFi
- Power over Ethernet (PoE)
- Integrated VPN

Results

National Store is extremely satisfied with its TZ firewall. They find that the SonicWall TZ solution:

- Beat the competition in security effectiveness
- Provide the best security value
- Easy to deploy and manage
- Have the networking features they need

Operational benefits the company received following the deployment of their SonicWall TZ included:

- Reduced IT infrastructure costs
- Improved data protection of critical information
- Ability to meet regulatory compliance standards
- Lowered total cost of ownership
