Integration Guide: Untangle NG

This article describes how to integrate the Untangle NG Firewall with SonicWall. Please follow the steps below:

1. On the Apps page install the Application IPSec.

2. Enable the IPsec VPN application.

3. Create a new IPSec Tunnel by selecting Add.

4. Fill in the information as seen in the image below. Please contact Support to receive your Pre Shared Secret Key.

5. Select Done and then Save.
6. Check the Tunnel Status; it should be **Active**.

7. Select **Add** to create a rule to allow the connected clients to access the internal LAN.

8. Add the LAN subnet of the address the tunnel side will provide (10.255.0.0/16).

9. Enable the rule by selecting **Done**.
10. Select **Save** to apply the new rule.

---

**SonicWall Support**

Technical support is available to customers who have purchased SonicWall products with a valid maintenance contract.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. To access the Support Portal, go to [https://www.sonicwall.com/support](https://www.sonicwall.com/support).

The Support Portal enables you to:

- View knowledge base articles and technical documentation
- View and participate in the Community forum discussions at [https://community.sonicwall.com/technology-and-support](https://community.sonicwall.com/technology-and-support)
- View video tutorials
- Access [https://mysonicwall.com](https://mysonicwall.com)
- Learn about SonicWall professional services
- Review SonicWall Support services and warranty information
- Register for training and certification
- Request technical support or customer service

To contact SonicWall Support, visit [https://www.sonicwall.com/support/contact-support](https://www.sonicwall.com/support/contact-support).
