```

The Parse::Yapp module and its related modules and shell scripts are copyright (c) 1998-2001 Francois Desarmenien, France. All rights reserved.

You may use and distribute them under the terms of either the GNU General Public License or the Artistic License, as specified in the Perl README file.

If you use the "standalone parser" option so people don't need to install Parse::Yapp on their systems in order to run you software, this copyright noticed should be included in your software copyright too, and the copyright notice in the embedded driver should be left untouched.
